

# Welcome to your Quick Tour!

 Goal: Your quick tour aims to give you a high level overview of a few features before we drill down into much more detail.

 Objective: In 10 minutes or less, experience editing, running and tracking a process. Get a feel for strake/IR and want to learn more!

 Plan:

Step 1: Log in – 1 minute or less

Step 2: Edit a Process – 3 minutes

Step 3: Run Your Process – 3 minutes

Step 4: Now Complete a Task – 1 minute

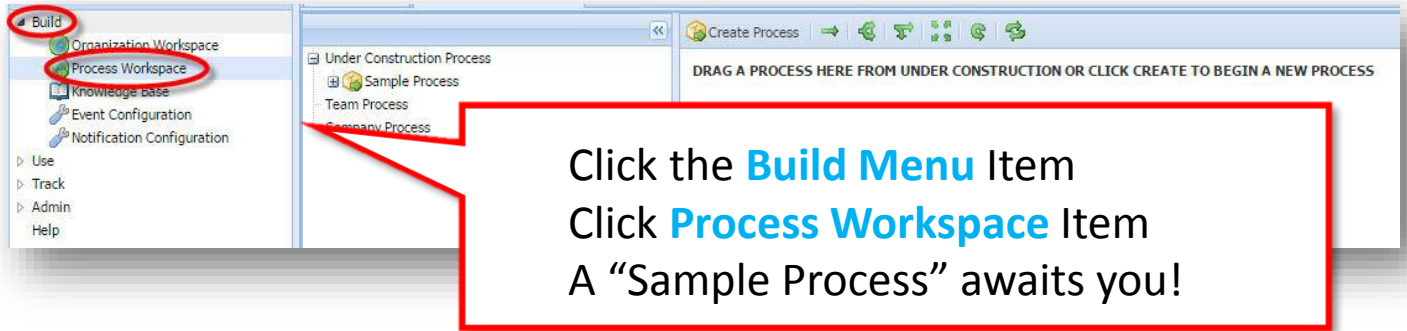

Step 5: Track Your Process – 1 minute

 Note:

Our Support section has detailed videos and articles on every feature of our product. The quick tour is to get your feet wet before the big dive! And in case you need it, we provide swimming lesson for every level, beginner to advanced!

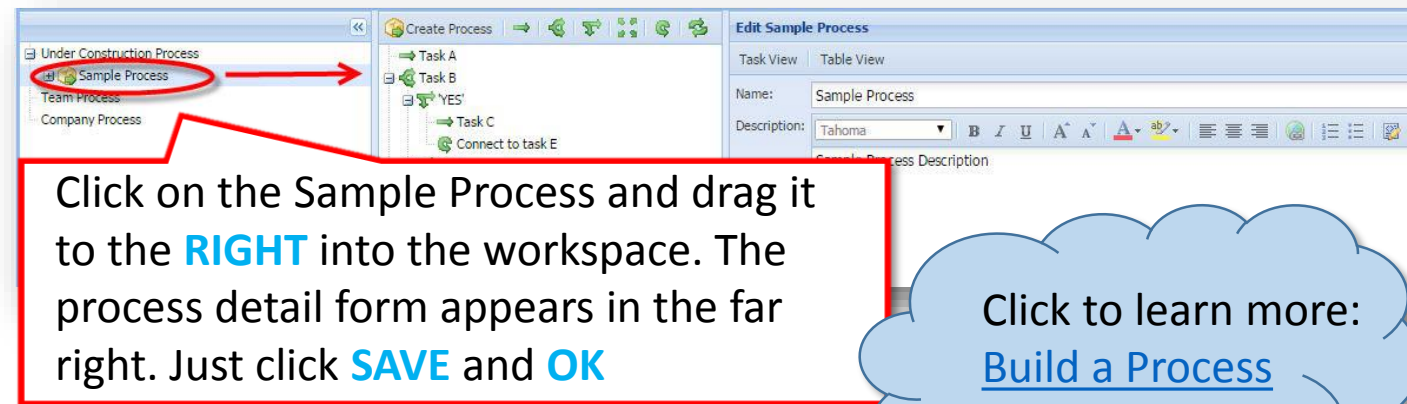

**Step 1: Log in!** Return to your activation email if you have not created your password and log in directly from that link. If your account is created, login [here](#)

## Step 2: Edit a Process!

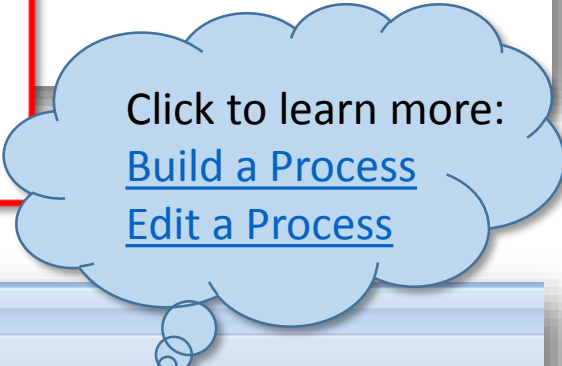

The screenshot shows the software interface. On the left, a navigation menu has 'Build' and 'Process Workspace' circled in red. The main area shows a tree view under 'Under Construction Process' with 'Sample Process' selected. A red callout box contains the following text:

Click the **Build Menu** Item  
Click **Process Workspace** Item  
A "Sample Process" awaits you!

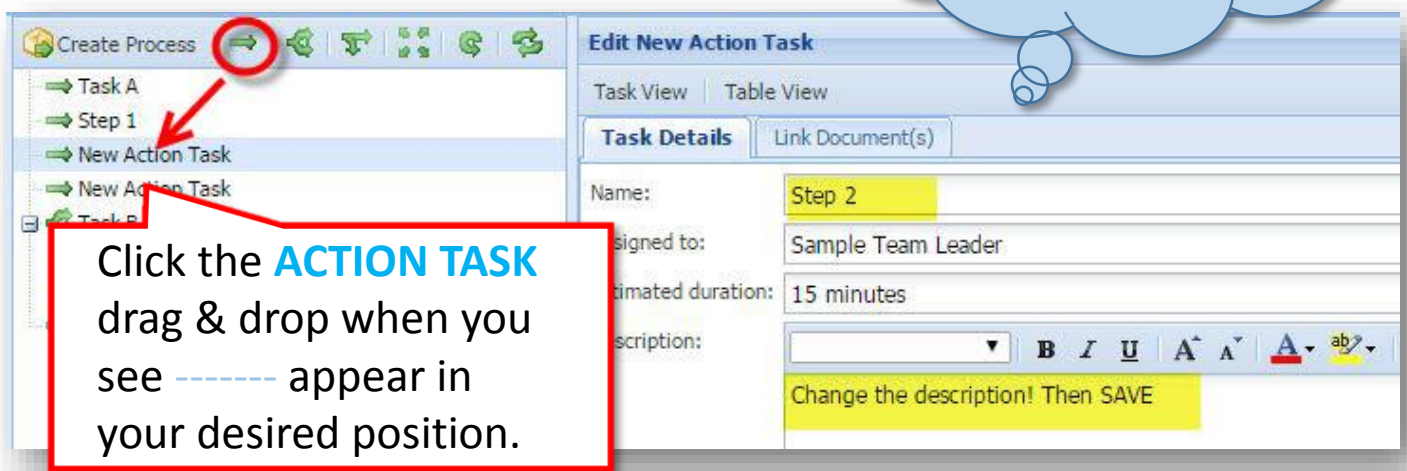

The screenshot shows the 'Edit Sample Process' form. The 'Sample Process' item from the tree view is being dragged into the workspace. A red callout box contains the following text:

Click on the Sample Process and drag it to the **RIGHT** into the workspace. The process detail form appears in the far right. Just click **SAVE** and **OK**

Click to learn more:  
[Build a Process](#)  
[Edit a Process](#)

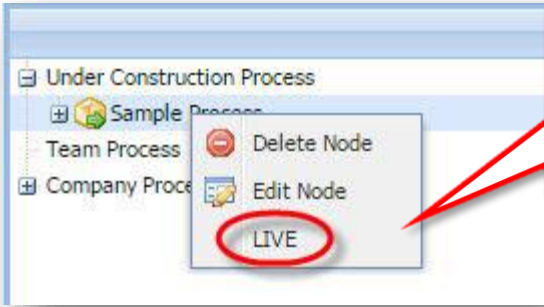

The screenshot shows the 'Edit New Action Task' form. The 'ACTION TASK' icon in the tree view is circled in red. A red callout box contains the following text:

Click the **ACTION TASK** drag & drop when you see ----- appear in your desired position.

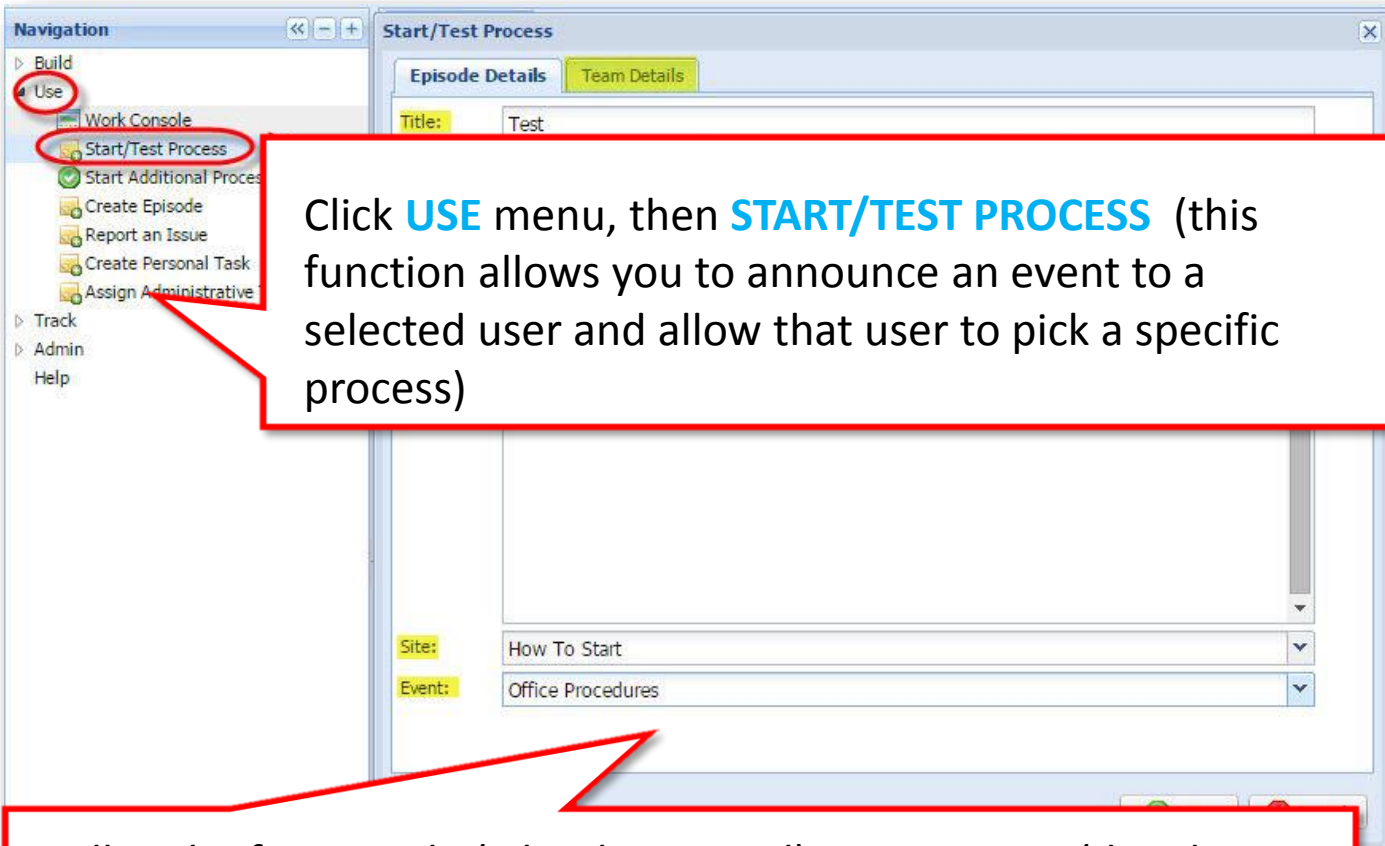

The form fields are: Name: Step 2, Assigned to: Sample Team Leader, Estimated duration: 15 minutes. A yellow highlight is under the 'Step 2' text.

Edit the fields in the form & **SAVE**. Repeat until you are comfortable with the action!

## Step 3: Run Your Process

**RIGHT** click process name and click **LIVE** so you can run it! Click **OK**

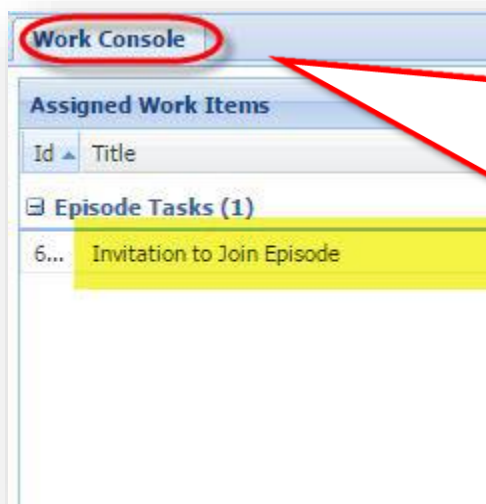

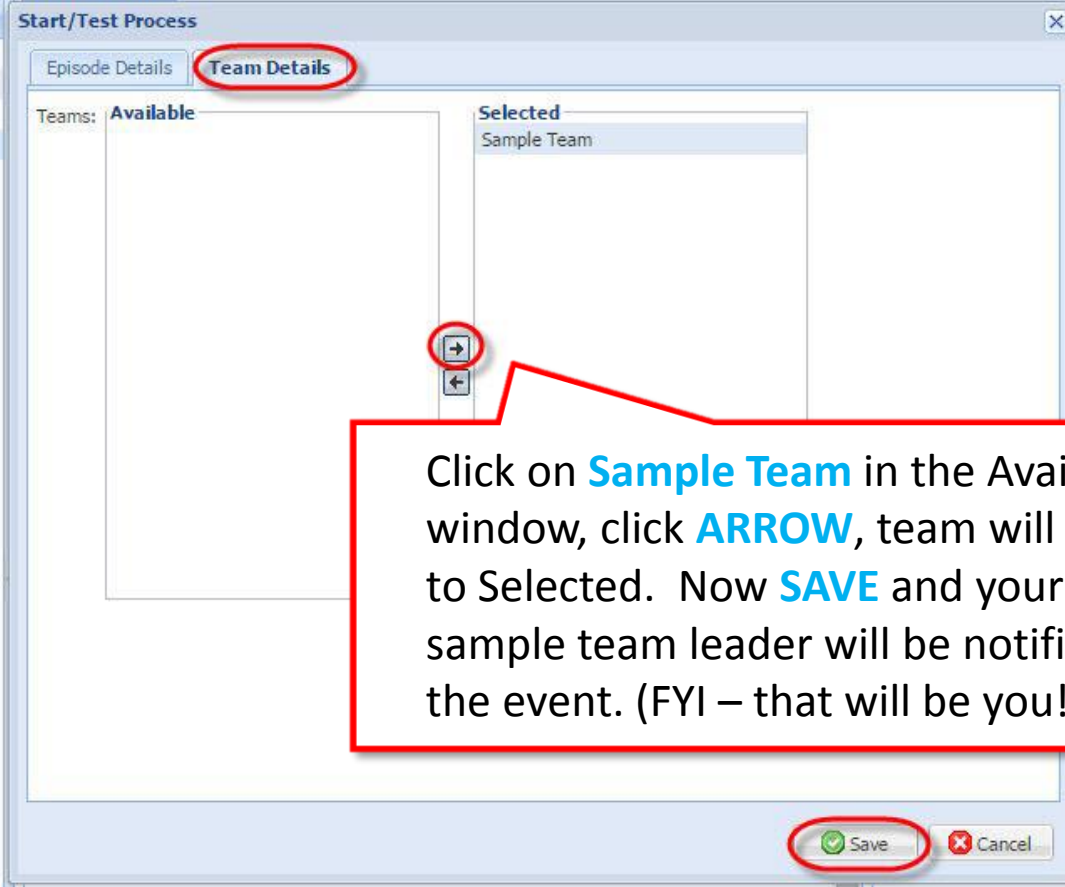

Click **USE** menu, then **START/TEST PROCESS** (this function allows you to announce an event to a selected user and allow that user to pick a specific process)

Fill in the form: Title (what happened) , Description (details you want to share) Site (drop down), Event type (drop down), then click **TEAM DETAIL** and select your 'sample team'

Click to learn more:

[Start/Test a Process](#)

[Start Additional Processes](#)

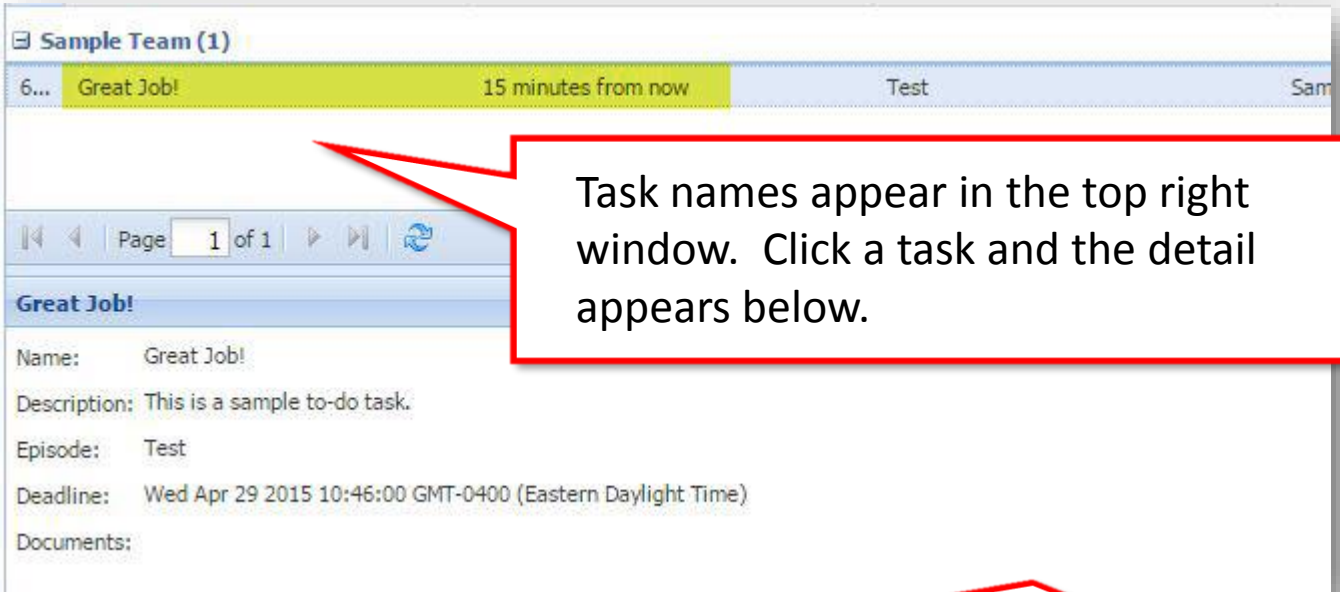

Click the **Work Console** tab at the top of your left window. You are the team leader so the invite awaits you! Click on **Invitation**. At bottom of your screen clic **Join Episode**

All of your team processes will appear, Click on **Sample Process** to select and click **SUBMIT**.

## Step 4: Now complete the tasks!

The screenshot shows a task detail window for 'Great Job!'. At the top, there is a header bar with the task name 'Great Job!', a status '15 minutes from now', and a 'Test' episode. Below the header, there is a navigation bar with 'Page 1 of 1' and a refresh icon. The main content area displays the following information:

- Name: Great Job!
- Description: This is a sample to-do task.
- Episode: Test
- Deadline: Wed Apr 29 2015 10:46:00 GMT-0400 (Eastern Daylight Time)
- Documents:

Task names appear in the top right window. Click a task and the detail appears below.

Here are your options:

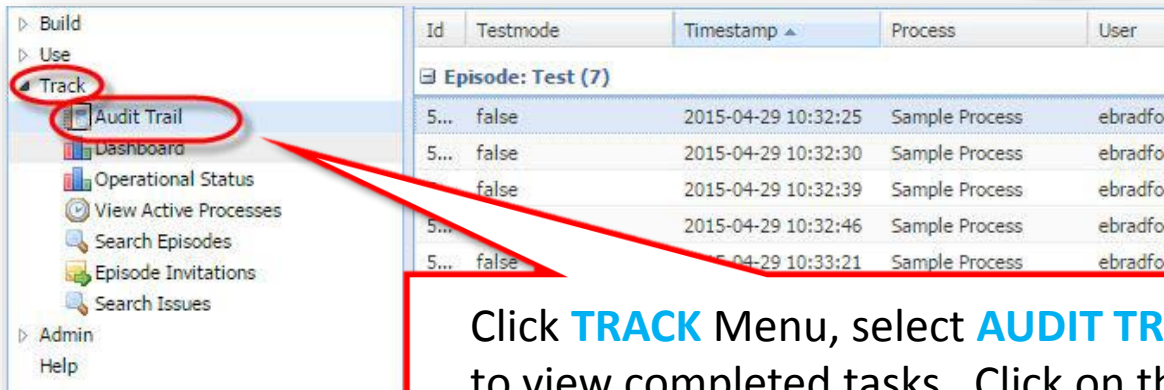

Click Update notes – add a note before completing a task!

Accept Task – Click it - task will appear in the audit trail as accepted.

Mark as Completed – the next task will be released when you do!

To learn more about task completion, view [here!](#)

## Step 5: Track Your Process

The screenshot shows the 'Track' menu on the left, with 'Audit Trail' selected. The main area displays an audit trail table for the episode 'Test (7)'. The table has columns for Id, Testmode, Timestamp, Process, and User.

Id	Testmode	Timestamp	Process	User
5...	false	2015-04-29 10:32:25	Sample Process	ebradfo
5...	false	2015-04-29 10:32:30	Sample Process	ebradfo
5...	false	2015-04-29 10:32:39	Sample Process	ebradfo
5...	false	2015-04-29 10:32:46	Sample Process	ebradfo
5...	false	2015-04-29 10:33:21	Sample Process	ebradfo

Click **TRACK** Menu, select **AUDIT TRAIL** to view completed tasks. Click on the Event: Title (you named).
